Demo

The screenshot shows a web browser window with the address bar displaying 'nodejs.org/download/'. The page title is 'Downloads'. Below the title, there is a paragraph: 'Download the Node.js source code or a pre-built installer for your platform, and start developing today.' followed by 'Current version: v0.10.31'. There are three main download options: 'Windows Installer' (node-v0.10.31-x86.msi), 'Macintosh Installer' (node-v0.10.31.pkg), and 'Source Code' (node-v0.10.31.tar.gz). Below these, there is a table of download links for various operating systems and architectures.

Windows Installer (.msi)	32-bit	64-bit
Windows Binary (.exe)	32-bit	64-bit
Mac OS X Installer (.pkg)	Universal	
Mac OS X Binaries (.tar.gz)	32-bit	64-bit
Linux Binaries (.tar.gz)	32-bit	64-bit
SunOS Binaries (.tar.gz)	32-bit	64-bit
Source Code	node-v0.10.31.tar.gz	

Note: Python 2.6 or 2.7 is required to build from source tarballs.
